

## 1SOURCE

EquiLend's 1Source initiative aims to resolve central pain points and risks, develop state-of-the-art technological solutions and efficiently transform the securities finance industry.

EquiLend 1Source was pioneered by an EquiLend-convened Digital Transformation Working Group made up of market participants representing a broad cross-section of the industry, whose goal is to solve key challenges facing the industry. The initiative harnesses emerging technologies such as distributed ledger to develop a single source of truth for securities finance lifecycle events.

The first undertaking of the 1Source initiative is to eliminate the reconciliation of securities lending transactions, which was identified by the working group as the most pressing issue facing the industry.

### 1Source serves as a single source of truth for the securities finance industry, offering:

A universal source of data for the industry

Established operating procedures that produce predictable and consistent results for participants

A central record of the agreements made between parties

Disseminated changes to all systems that maintain a copy of the shared truth

1Source will be available industry-wide and interoperable with any vendor, utility or other party interested in connecting. Contact us at [EQUILENDCRM@EQUILEND.COM](mailto:EQUILENDCRM@EQUILEND.COM) today to learn more about how we are efficiently transforming the industry with EquiLend 1Source—and how you can join the movement.
