 - Fully integrated with EquiLend Trading and Post-Trade Solutions for complete trade lifecycle automation.
- **Rate Engine & Benchmarking**
 - Dynamic rate management with support for rerates, returns, recalls and lifecycle adjustments plus optional benchmarking capabilities through EquiLend Data for enhanced pricing transparency.

Turn Passive Assets into Active Revenue.

EquiLend Fully Paid Lending (FPL) enables retail brokers to unlock the untapped potential of fully paid securities in customer portfolios. By lending out these dormant assets, brokers can create new income streams for both themselves and their clients. Built on EquiLend's advanced technology and seamless integration with the broader EquiLend ecosystem, FPL delivers automation, transparency and compliance, making it an essential solution for retail brokers competing in today's evolving market.

FPL Overview

BENEFITS

- **New Revenue Streams** — Generate incremental income for both brokers and retail clients.
- **Operational Efficiency** — End-to-end automation reduces manual touchpoints and risk.
- **Regulatory Compliance** — Comprehensive compliance framework, including IIROC alignment for Canadian programs.
- **Seamless Integration** — Connectivity to existing books and records systems, supported by the EquiLend ecosystem.
- **Transparency & Trust** — Robust reporting, allocation fairness and audit-ready workflows.
- **Market Insight** — Benchmarking available via EquiLend Data & Analytics Solutions.

FUTURE-READY LENDING

With EquiLend Fully Paid Lending Solution, brokers can unlock the value of their clients' portfolios while ensuring operational resilience and compliance. From real-time inventory to automated lifecycle management and integrated reporting, EquiLend FPL Solution is designed to maximize revenue potential and simplify program administration.

Partner with EquiLend to transform fully paid securities into a strategic advantage.
